

BMW N47 N57 Crankshaft Locking Tool

 cartools.tw/product/bmw-n47-n57-crankshaft-locking-tool/

Item No. CT2B0011

- It's difficult to replace the oil pump chain, both timing chains, the gear of the high pressure pump and of the balancer shaft if without this locking tool.
- Without this tool the engine works irregularly.
- Applications: BMW 2.0 N47 & 3.0 N57 diesel engines.
- OEM Code: 114 320.

The crankshaft must be blocked in order to release central bolt (1) of the high pressure pump. Position special tool CT2B0011 with screw (2) at the crankcase. Release central bolt (1) of high pressure pump. Important! Release central bolt only, do not remove.
